INTRODUCTION

Philinter Academy has a long-standing tradition of offering programs with a strong academic focus, which we firmly believe in. However, it's important to note that we also value and encourage play and other activities as essential components of a well-rounded educational experience. We believe that finding the right balance between schoolwork and fun is important for students to truly enjoy learning.

Starting in 2024, we are committed to improving our academic programs even more. This includes completely updating our textbooks, introducing a more interactive curriculum that focuses on speaking and having a strict training schedule that goes on until Saturday mornings. These improvements are designed to provide your children with a comprehensive and

enriched learning experience.

Upon completing our program, you will witness a noticeable transformation in your children's ability to engage in open and fluent conversations with native speakers. We are dedicated to addressing any issues from the previous year while using our strengths to ensure that your children receive the best education possible.

Furthermore, we strongly believe that the efforts of the Philinter team lay the important foundation for your children's future success. Your trust in us is a responsibility we take seriously, and we are committed to delivering on that trust with high-quality education and personal growth.

Hello everyone, my name is Lou. How time flies! This is my last day in Philinter. I will definitely remember the moments that we laughed together, we discussed together, and we played games together. This is the best way to **improve my listening**. I never thought that I could understand what Japanese, Korean, and Vietnamese say.

STUDENT REVIEWS

The teachers here are eager to help me and take care of me in my studies, always listen to my opinions, and respect me. Although I have my own learning direction, every teacher here tries to change their **teaching style to suit me**. I really appreciated that.

-Endy

Studying abroad as a family with children who are in elementary and high school was **a great decision!** In particular, my eldest son has grown tremendously, both as a person and in his English skills. If you have middle school or high school students, or if you are worried about letting your child participate alone, I highly recommend that you participate!
