Buddy Day

APRIL
Highlights

FROM VIETNAM TO THE PHILINTER STAGE

In the earlier weeks of April, two Vietnamese students stepped up—not just to practice English, but to showcase their business minds.

Family Coconut Cracker Business

Jack

Jack took us behind the scenes of his family's coconut cracker business, highlighting how they're blending traditional methods with modern innovations. His pride in their roots and forward-thinking vision made the presentation feel more like a real investor pitch than a classroom task.

KPIs in Supply Planning

Serena

Serena didn't just talk about key performance indicators—she made them matter. With clarity and confidence, she walked us through how companies measure success and why KPIs are crucial in making smart supply chain decisions.

The Result?

An engaged audience, a boost of confidence, and another reminder that real learning happens when students take the lead.

SPEAK, CREATE, SHINE: PREMIUM JUNIOR CULMINATION

On April 16, Philinter Academy's **Thai Premium Junior students** marked the end of their English journey with a vibrant culmination event. The celebration featured a series of activities that highlighted the students' progress in language skills and teamwork.

The day began with a poster-making session, where students displayed their creativity and English writing skills. This was followed by an art exhibit, showcasing their work and providing an opportunity to practice speaking about their pieces. The students then took the stage for a lively school play, demonstrating their fluency and ability to perform in front of an audience.

Art Exhibit

Role Play

In addition, a game of charades tested their quick thinking and language comprehension, while a friendly match of badminton brought out their team spirit and collaboration.

These activities were a perfect reflection of the students' development—not just in English, but in their confidence, teamwork, and ability to express themselves.

The culmination event was a success, with students showing impressive growth, both in their English proficiency and personal development. Their journey at Philinter has truly prepared them to take on new challenges with confidence.

GLOBAL CONNECTIONS

Our team set out on two exciting business trips this month, focusing on forging new partnerships and sharing our expertise in language learning

The first trip took us to Mongolia, where we connected with partner agencies, attended education fairs, and visited two schools. A key highlight was meeting the Bayangol District Governor and Vice Governor to report on the progress of the first 20 Mongolian teachers who studied at Philinter. The trip was a success in building stronger ties and exploring future collaborations.

Next, we traveled to Thailand, where we revisited our longtime partners and engaged with new ones. We also attended a fair, aiming to further strengthen our presence and create more opportunities for Thai students to benefit from Philinter's programs.

TRIPLE IMPACT

Not one, not two, but THREE outreach programs happened this month — each one as heartwarming as the next!

On April 13, our Thai Junior Camp students made their way to Children's Haven in Cordova, Cebu, where they served Jollibee meals and built connections with the kids there. The smiles were contagious, and the bonds formed were unforgettable.

Children's Haven Cordova, Cebu

Just one week later, on April 20, the magic continued with our GEO School students from Korea. They didn't just bring snacks — they treated the kids to a musical performance, filling the air with sweet melodies and even sweeter memories.

Finally, on April 26, our regular students spread joy at SOS Children's Village Cebu. The day was filled with dance, music, and laughter, as our students and the kids formed meaningful connections that left everyone with memories to cherish.

SOS Children's Village Cebu

Three dates. Three heartfelt events. And a whole lot of love shared all around.

SEEING IS BELIEVING: THAI SCHOOL DIRECTORS GET TO KNOW PHILINTER

What's the best way to familiarize yourself with a place?

Simple—experience it firsthand!

On April 25, 16 school directors from Thailand did just that during the **Thai Fam Tour at Philinter Academy**, organized by **Mango Agency**. The day began with an introduction to Philinter, where the directors gained valuable background information about the academy's courses and teaching methods. They then listened to personal reviews from Thai students, offering them insights into the experience of studying at Philinter. To wrap up the tour, they explored the facilities and attended a demo class, getting a taste of the Philinter experience in action.

It was a day of discovery, learning, and connection that left everyone with a clearer understanding of what Philinter has to offer.

APRIL'S GRAND FINALE: CELEBRATING BUDDY DAY!

As we bid farewell to April, Philinter Academy celebrated the month's English Day with a special event—Buddy Day! This exciting occasion not only honored the Buddy Teacher System, which was introduced back in 2005, but also highlighted the essence of Philinter's personalized approach to learning. The Buddy Teacher System enhances students' English skills while fostering deeper connections between teachers and learners.

Buddy Day

English Day

On Buddy Day, the entire academy came together to take part in a variety of fun-filled activities, including Buddy Match, Lip Sync Battle, and Guess It Buddy. These engaging challenges encouraged collaboration, laughter, and a little friendly competition, allowing students and teachers to bond in new and exciting ways.

The day was a resounding success, leaving everyone with unforgettable memories and a stronger sense of community. A heartfelt thank you goes out to everyone who participated and made this event such a memorable one.
