Turning Heads in Thailand with ESL and IELTS Excellence

The month opened with Philinter's participation in the Study ESL in the Philippines Fair organized by Mango Learning Express Thailand at the Eastin Grand Phayathai Hotel on February 1. Represented among leading Cebu institutions, Philinter promoted its ESL, CAMP, and IELTS programs to strong interest. The academy welcomed numerous visitors to its booth, with several quotations issued and confirmed long-term enrollments already secured. The IELTS program, in particular, drew notable attention, reinforcing Philinter's growing recognition in the Thai market.

February IELTS Success

On campus, February was equally dynamic. The academy successfully administered its first official paper-based IELTS Academic test of 2026 on February 7, with thirteen students participating. As the year's opening official test, the session marked an important academic milestone and set a confident tone for the months ahead.

Two weeks later, the results were in, and all thirteen test takers improved their scores. Among them, one Taiwanese student achieved an impressive 7.5, and another from Taiwan scored 7.0. Two students reached 6.5—one from Taiwan and one from China. Two from Japan and one from Taiwan came close to this benchmark, securing 6.0 each. The collective progress highlights both the students' dedication and the academy's commitment to nurturing success at every step.

A Campus Season Filled with Heart

Mid-month, the campus atmosphere transformed with the celebration of **Valentine's season at Philinter**. The lobby came alive with heart-themed displays, while teachers and students shared live song dedications during class breaks. The community also reflected on the meaning of love through campus-wide participation. On February 13, the academy held its Love and Appreciation Giving, honoring teachers as the true heart of the institution.

The celebration of connection and confidence continued on February 27 through the much-anticipated **English Day: Mr. & Ms. Searcher – A Valentine's Day Celebration**. The event highlighted student confidence, quick thinking, and stage presence through interactive segments that kept the audience fully engaged. More than a festive showcase, it reflected Philinter's commitment to creating meaningful platforms where communication skills and personality development take center stage.

Premium Junior Speaking Culmination

Academic excellence remained front and center with the **Premium Junior Speaking (KR) Culmination Activity** on February 26. The second batch of junior learners demonstrated their progress through poster presentations, exhibits, story reading, roleplay performances, awarding ceremonies, and a PE culmination. The activity reflected both measurable language growth and strengthened student confidence developed over their six to seven weeks of training.

Where Great Teachers Get Even Better

From February 23 to 26, Philinter teachers once again underwent the quarterly ESL evaluation, covering listening and pronunciation, writing, grammar proficiency, and reading and vocabulary. Conducted in line with the academy's commitment to excellence, the assessment ensures that instructors remain academically sharp, professionally credible, and fully equipped to meet the evolving demands of English education.

A New Chapter in Philinter Identity

February also marked a milestone moment for the academy with the official introduction of Pilly and Terry, Philinter's very first mascots conceptualized and created by CEO Sir Choi. More than symbolic figures, they emerge as the academy's newest learning companions and proud IELTS warriors. Designed to appear across announcements, student engagements, and key campus moments, Pilly and Terry represent Philinter's evolving identity and its commitment to creating a more connected and engaging learning environment.

At Philinter, progress is never accidental. It is built through deliberate steps, shared commitment, and a clear vision of where quality education should lead. As the academy moves beyond February, the direction remains firm and forward-looking, guided by the same principle that continues to define its work.
