

**PHILINTER
ACADEMY**

Monthly Philinter

March Edition

March has been a month of significant progress across our administrative, academic, and community sectors. At Philinter, progress is the result of deliberate action and a shared vision for excellence, guided by the mission to provide a transformative educational experience for every student who enters our doors.

Beyond the vision lies the execution. Here is how progress took shape across our campus and beyond this March.

2026

Business Trips: Expanding Influence Across Key Markets

Throughout March, Philinter Academy reinforced its international presence through a series of strategic engagements across Vietnam, Taiwan, and Mongolia. Our team met with partner agencies, visited local schools, and participated in major educational fairs. These missions are essential for presenting the unique academic opportunities available in Cebu to a broader international audience and ensuring Philinter remains a top-tier choice for global learners.

VIETNAM

TAIWAN

MONGOLIA

IELTS Trial & Official Test

On campus, the pursuit of academic certification remained a top priority. On March 7, the academy facilitated an official Trial Test in partnership with the British Council, allowing ten students and ten teachers to experience a simulated testing environment identical to the actual exam.

This proactive approach set the stage for the Official IELTS Academic Test on March 21. Following the rigorous preparation of the trial sessions, our candidates approached the paper-based module with heightened confidence. We look forward to announcing their official results, which continue to serve as a benchmark for our institutional success.

THE CBT CENTER PROJECT

Construction officially commenced on March 9 for our new **Computer-Based Test (CBT) Center**. Located on the second floor of the campus cafe, this facility is designed to align the academy's testing environment with international digital standards. Once completed, the center will provide students with faster result turnaround, flexible test dates, and a professional space for IELTS and PTE practice, ensuring our facilities remain at the forefront of English education technology.

PEDAGOGICAL MASTERY: ELEVATING INSTRUCTIONAL STANDARDS

Following the comprehensive evaluations of the previous month, March was dedicated to refining the expertise of our teaching force. Starting the first week of the month, new faculty members underwent intensive **IELTS training**, while other instructors including experienced teachers participated in specialized **TOEIC and Pronunciation training**. These sessions ensure that Philinter educators remain academically sharp and fully synchronized with the latest global exam trends, maintaining the high-caliber instruction that defines our programs.

SECTION WARS 2026: FORCES OF GREATNESS

A MULTI-WEEK CHALLENGE IN ACADEMIC DISCIPLINE

This month's English Day evolved into a progressive competition designed to foster teamwork and linguistic focus. Moving beyond a single-day event, the competition spanned several weeks, challenging students and teachers through 5-minute break activities.

The culmination on March 27 was a showcase of creativity and stamina, featuring flag presentations, cheer dance performances, and the highly anticipated "Amazing Race." We extend our congratulations to Section A for being crowned the overall champions of this spirited academic challenge and to all participants for an outstanding performance.

Philinter Cares: Compassion Beyond the Classroom

On March 28, the Philinter community extended its reach to The **Children of Cebu Foundation, Inc.** Student volunteers, including our **Thai Junior Camp**, dedicated their afternoon to service and engagement with the local community. A notable highlight was the personal initiative of our **Vietnamese students**, who prepared individual gifts for the children. This outreach remains a core pillar of our mission to develop socially responsible global citizens.

The Junior Journey Begins

The academy was pleased to welcome the newest cohorts of the **Thai Junior Camp**, with arrivals on March 16 and March 30. As these young learners begin their immersive English journey, our staff remains dedicated to providing a secure and high-quality educational environment. We are committed to ensuring their time in Cebu is both academically productive and culturally enriching.

As we conclude this productive month, we remain inspired by the progress of our students and the dedication of our faculty. We look forward to another month of shared success and continued academic growth as we head into April.
